

FLOORTEX™
s o l u t i o n s

chair mats and floor
protection mats for
the office, home
and home office.

Whether in the office or in the home, a Chair Mat is the perfect protection and ergonomic solution.

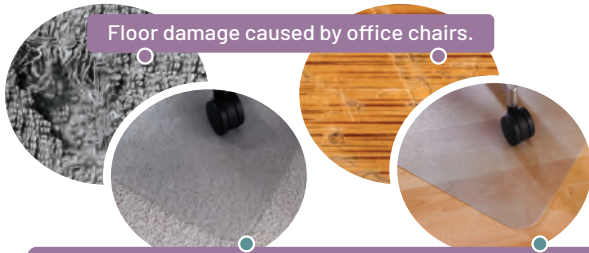

Not just a mat, but a vital part of looking after you and your work space.

Protect your hard floors and carpets from the expensive damage, abrasion and wear that can be caused by office chairs.

Why do you need a Chair Mat?

For floor protection & improved ergonomics:

Floor damage caused by office chairs.

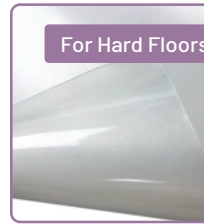

No damage when you use a Chair Mat!
Excellent ergonomics and easy-glide movement.

How to choose a Chair Mat

Check your surface:

For Carpets

For Hard Floors

Choose a gripper backed mat for Carpets or a smooth backed mat for Hard Floors.

All Floortex™ mats are manufactured utilising at least 45% renewable energy for a reduced carbon footprint.

Which material?

Floortex™ Phthalate Free PVC Vinyl

Excellent value combined with great floor saving and ergonomic performance.

- Available in two gauge options for Low Pile and Standard Pile carpets.
- Also available with the new and unique TrYlok™ multi-directional Gripper system.
- Homemat™ Mats and Homemat™ Multi-Purpose Mats are also manufactured in PVC.

What size or shape?

When deciding on the best size and shape of Chair Mat that you may need, it may help to consider the following:

- Your total floor space.
- The width of your workstation.
- The size of your chair base.
- Your 'Roll Area'.

Roll Area: How much area you cover when you roll to retrieve items or move around your work space.

Rectangular

Ideal for desks with desk mounted pedestals or without pedestals.
Provides a larger gliding area for maximum floor protection.

Keyhole

Ideal for desks with floor mounted pedestals.
Provides increased protection in the footwell.

Floortex™ Original Polycarbonate

The ultimate Chair Mat that provides premium protection, superior ergonomic performance, high clarity and outstanding durability.

- Our Floortex™ polycarbonate Chair Mats are produced from the same material that is used in the manufacture of bullet-resistant glass and aircraft windscreens!

Choose the best Floortex™ Chair Mat for your Carpet Floor.

Choosing the correct gripper backed mat for your Carpet Floor depends on your carpet type. Selecting the correct mat for your particular carpet is important to ensure stability, durability, safety and the best ergonomic and protection performance.

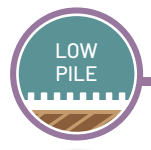

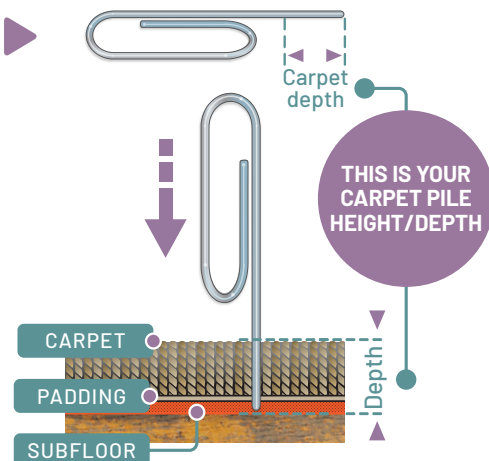

Check your carpet pile height using the method explained below before selecting your mat.

Your carpet pile height can be divided into three main categories:

Fold open a paperclip as shown opposite.

Push the paperclip through the carpet and padding until it meets the subfloor.

Measure the distance on the paperclip from the subfloor to the top of the carpet pile.

Up to 6mm

Up to 9mm

Over 12mm

Hard Floors like Wood, Laminate, Tiles, Concrete or Vinyl do not require a Gripper backed Chair Mat.

All Floortex™ Hard Floor mats are Smooth backed for the best performance on all types of Hard Floors.

Now choose the best Floortex™ Chair Mat to suit your needs!

Floortex™ PVC Chair Mats

Excellent value combined with great floor saving and ergonomic performance.

- Clear floor protection mats made from a PVC formulation that provides optimum performance and durability.
- 100% free of harmful DIDP Phthalate content for improved air quality.
- Available in smooth back for hard floors or gripper back for either low or standard pile carpets.

Product Code	Size	Shape
ACCMFLPS0001	90 x 120cm	Rectangular
ACCMFLPS0002	116 x 150cm	Rectangular

For Hard Floors

Floortex™ TrYlok™ PVC Chair Mats

The new, innovative, safe and superior carpet friendly Chair Mat solution!

With up to 20% improved slide resistance compared to traditional spiked grippers, a TrYlok™ Chair Mat is the best and newest option for carpet floors.

Our new multi-directional TrYlok™ grippers are grouped and carefully orientated to provide incredible lateral resistance. They do not use a sharp spike to penetrate your carpet.

This innovative new design solution is much gentler to your carpet fibers and carpet construction - but has far superior multi-directional resistance for effective and improved stability.

- Provides maximum resistance to movement in any direction, for ultimate stability on low pile carpets.
- No sharp spikes and no split or broken grippers means TrYlok™ mats are easier to handle and move around, gentler on your hands and your carpets!
- Produced from a unique PVC formulation to provide optimum performance and durability.
- 100% free of harmful DIDP Phthalate content for improved air quality.

For Carpets

For Low Pile carpets

Product Code	Size	Shape
ACCMFLVT0001	90 x 120cm	Keyhole
ACCMFLVT0002	115 x 134cm	Keyhole

Floortex™ PVC Homemats™

Multi-use PVC mats for excellent and durable protection of flooring around your home, office or home office.

Available in Gripper backed format for Low Pile carpets and in Multi-Purpose Smooth backed format for general floor protection on all floor types.

- Free of phthalates, heavy metals and BPA for peace of mind when used around pets or children.
- Clear vinyl allows flooring to show through for maximum visual effect. Lightly textured anti-skid top surface.

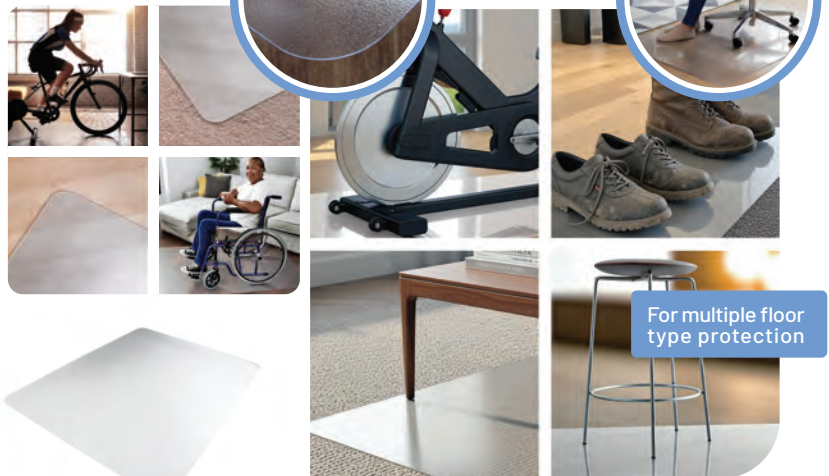

For Carpets

Homemat™ for Low Pile carpets

Product Code	Size	Shape
ACCMFLVG0005	75 x 120cm	Rectangular

Homemat™ Multi-Purpose Floor Protection Mat

Product Code	Size	Shape
